

to establish the best technology : tech-smart

# Mtek-smart Corporation

## *Mtek-smart Offers Precision-coating Technologies for any Type of Coating Material*

### *—LED Production Method*

Thanks to our patented technology 【US Patent No. 9,064,979】【Patent pending in other countries】 we are able to produce **LEDs of maximum quality** by **applying multi-color phosphor coating on high value-added LEDs.**

### *—Coating method and device:*

Thanks to our patented technology 【Chinese Patent No. ZN201380014347.5】 【Japan Patent No. 5840959】【Patent pending in other countries】 we are able to conduct **automated ultra-fine coating weight measurement and calibration** , through which ink-jet, dispenser, and spray methods become possible and **high quality coating is guaranteed.**

【Application areas】: LED/OLED, SEMICON , MEMS , Solar cell , Fuel cell , Secondary battery, biotechnology, pharmaceuticals

Room #115 Main Building    Manufacturing
