Company name - Aiwa Shibori Co.,Ltd.

Inquiries - Tomokazu Ōnami - E-mail: [aiwa@f7.dion.ne.jp](mailto:aiwa@f7.dion.ne.jp)

**About Aiwa Shibori** Our company was established in 1982 and until now has mostly concentrated on processing parts using metal spinning. Recently, we have created our own metallic lacquer ware, and a new brand, "Onami", and are exploring new applications for our technology.

**Company strengths** Our metal spinning technology has received "Kawasaki Master", "Kawasaki Monodukuri Brand" and "Kawasaki Monodukuri PR Product" recognition from Kawasaki city. We are utilizing our years of experience to develop metallic dishware, and have created our own metallic lacquer ware and "Onami" brands. These brands were created in collaboration with experts in other fields, such as product designers and lacquer ware artists. We are always looking for new challenges, and work hard to provide our customers with products they can rely on.

## Main products

### Metallic lacquer ware

The surface of the spun metal is covered with lacquer.

### Onami

The distinctive lines created by metal spinning are retained for a handspun feel.
