About Asurabbit Co.,Ltd.

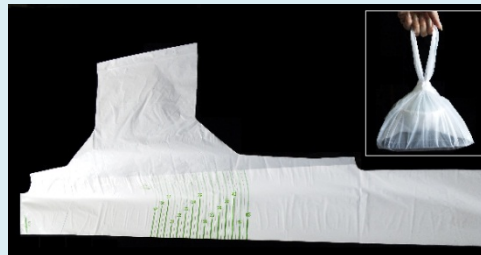

We take small but universal frustrations and finds solutions to them using our knowledge to develop and license technology.

Product strengths

Our "Lunch Vehicle" bags utilize suspended load technology used in cranes, and are the first of their type in the world. This technology, combined with centrifugal force, helps the food contained within the bag stays flat.

Main products

Lunch Vehicle (polyethylene plastic bag)

Lunch Vehicle (polyester Eco bag)

A bag specially designed to take home ready meals, that stops the food containers tilting.
