Prospective overseas business

As there are many varieties of skewered food in Asia, we want to sell our "Rakusashi-kun" automatic skewer machine across Asia.

Main business

A wide range, from thick plate pressing to mold making and coil processing, to selling automatic skewer machines and outlet building materials.

Company name - Hiroki Industry Co.Ltd

Inquiries - Masuda (Sales department) - E-mail: master@hiroki-ic.net

About Hiroki Industry

Since our company was established we have been working on improving our technology, while also actively trying to create new markets and explore new avenues.

Company strengths

We can customize our automatic skewer machines for each customer according to the ingredients they use and their work flow. We can meet a wide range of demands with our simple machine designed solely for skewering food.

Main products

Automatic food skewer machine "Rakusashi-kun"

Search for "ヒロキ産業" (no English version available) on YouTube for videos

An affordable and simple tabletop automatic skewer machine. **We independently developed a machine that skewers ingredients** such as chicken. Separating the two processes of inserting meat and skewers **has enabled us to create an affordable, compact machine.**

· Place the skewer in the machine.
· Anyone can use it - only the skewer and ingredients need to be inserted.

The ingredients have been skewered automatically.
