

Company Information

Field - Electronics

Company Profile

URL - <http://www.miwa-denki.co.jp/en/>

Company name - MIWA ELECTRIC CO.,LTD.

Established - October 27, 1944

Address - 539 Imai-minami-cho, Nakahara
Ward, Kawasaki

Tel - +81-44-722-7131

Fax - +81-44-722-7136

Representative - Katsumi Chiba

Capital - 80,000,000 yen

No. of employees - 80

Main business

- Power Transducers
- Analog meters
- Digital meters
- Target Type Fault Indicators
- Test Equipment
- Electro Magnetic Display Units (MAGSIGN)

Company name - **MIWA ELECTRIC CO.,LTD.**

Inquiries - marketing@miwa-denki.co.jp

About Miwa ELECTRIC

We have persistently manufactured and marketed electric measuring instruments, electronic equipment and control equipment making it our motto "to create original products based on original technology" since our establishment. Most of our products are specified by electric power companies.

Company strengths

Since 1952, our Maximum/Minimum demand meter has been a major product specified by electric power companies.

The requirements of automation and labor saving devices for industry has earned reliance and esteem from electric companies and other users.

Main products

Target Type Fault Indicators

MAGSIGN

The indicator incorporates a number of fault indicating elements(target) in a casing. For fault in power plants or substation with complicated circuits, it generates alarm and indicates type of the faults by closing the fault circuit.

MAGSIGN operates by magnetic-inversion-type indicators which invert permanent disks (indication plates) by electrical impulse signals.
