About SEIKO SPRING CO.,LTD

Our company has manufactured and sold various types of hairsprings for measuring equipment since it was established. We are trusted and well regarded by domestic and overseas companies in related fields. Our technology, cultivated through manufacturing hairsprings, is the foundation of SEIKO SPRING. We will always provide our customers with what they need, and continue to earn our reputation as a trustworthy company.

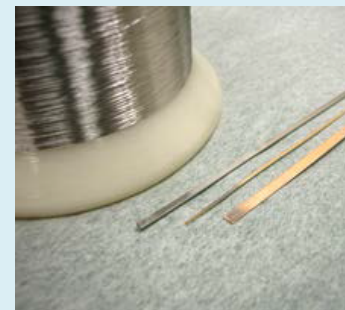

Company strengths

After fully understanding the clients needs and specifications, we develop the jigs required for manufacture ourselves, so we can create higher quality products.
