

Company Information

Field - Precision equipment,
machinery

Company Profile

URL - <http://shinwa-cont.com>

Company name - Shinwa Controls Co., Ltd.

Established - 1962

Address - 2-8-4 Gorikida, Asao ward,
Kawasaki

Tel - 044-986-1861

Fax - 044-986-3975

Representative - Hirokuni Koshima

Capital - 50,000,000 yen

No. of employees - 280 (as of July, 2011)

Overseas office - Group company in
Taiwan, service centers in North America,
Shanghai, South Korea and Singapore.

Current overseas business

Most of our air/water conditioning
equipment for semiconductor/FPD
manufacturing equipment is exported.

We want to expand and improve our
overseas sales and maintenance
provision.

Main business

We design, develop, manufacture,
provide and repair precision humidity and
temperature control equipment and
solenoid valves.

Company name - Shinwa Controls Co., Ltd.

Inquiries - 044-986-1861

About Shinwa Controls Co., Ltd.

We are a proposal based firm that designs, develops, manufactures, sells and performs maintenance on temperature control equipment and solenoid valves. Our management philosophy prioritizes employee wellbeing and symbiosis with the local region.

Company strengths

We hold 60% of the market share for solenoid valves used in Japan for dialysis. We have the third highest global share of chillers used for semiconductor manufacturing equipment, and have shipped more than 6,000 chillers.

Main products

**Precision air
conditioning
equipment**

We have achieved energy cuts of over 50% using energy saving technology unique to our local precision air conditioning for exposure equipment used in semiconductor and FPD manufacturing equipment. We have shipped over 10,000 units worldwide.
