

Company Information

Field - Precision equipment,
machinery

Company Profile

URL - <http://www.wako-keisoku.co.jp/>

Company name - WAKO KEISOKU CO.,
LTD.

Established - 1968

Address - Kawasaki, Kanagawa
Prefecture

Tel - 044-833-7181

Fax - 044-850-8586

Representative - Takashi Igarashi

Capital - 20,000,000 yen

No. of employees - 12

Overseas office - Distributors in China
and Vietnam

Main business

We develop, manufacture and sell
various types of measuring devices
used for liquid storage

Company name - WAKO KEISOKU CO., LTD.

Inquiries - Y. Akashi (Sales department) - 044-833-7181

About WAKO KEISOKU CO., LTD.

Our company was established in 1968 as a manufacturer of industrial measurement devices. Our main products are level gages and liquid level controllers.

Company strengths

Our level gages are ideal for use in oil refineries, water treatment, chemical processing and power plants. Our range of products also includes floating level gages that can be operated remotely as well as locally.

Main products

Our "LG-100" level gage detects the liquid level using a float, and controls the liquid level by changing the measuring stroke to the rotation angle through the transmission tape.

A no-voltage contact is supplied using gears, a microswitch and a cam. DC 4-20 mA output is also possible thanks to the combination of a potentiometer and R/I converter.
